

COMPANY PROFILE

THE
POWER OF
GOOD ADVICE

HELLO,
we are your expert in providing the right
solutions for Consulting business and
Interpretation ,Translation

WE OFFER

LET'S GROW WITH US

Forewords

We would like to express our sincere gratitude for your continued and exceptional support. **J TRUST CONSULTING INDONESIA** was established in June 2019 as a consulting business following the banking and debt collection operations conducted by the J Trust Group in Indonesia.

Utilizing the know-how cultivated by the globally expanding J Trust Group and our experience in the Indonesian market, we support your business through consulting services in areas such as labor, legal affairs, taxation, accounting, internal audits, business matching, and marketing, as well as Japanese interpretation and translation services.

The guiding principles of the J Trust Group are represented by the six elements of the acronym **"J.T.R.U.S.T": Justice, Teamwork, Revolution, Uniqueness, Safety, Thankfulness.**

We strive to be individuals who act fairly, innovatively, and uniquely, always with a sense of gratitude, in order to respond to and reassure each and every stakeholder.

By doing so, we believe we can build relationships that support our customers' prosperous lives and bright futures—and ultimately help energize the world.

Our Services

Interpretation and Translation Consulting

We provide high-level interpretation and translation services in specialized fields such as finance, economics, accounting, and financial affairs in Japanese, English, Indonesian, and Korean, delivered by interpreters and translators well-versed in financial business and experienced in the Indonesian market.

Labor and Legal Consulting

Our labor consulting specialists handle all aspects of labor and employment issues, including analysis of Indonesian labor laws and case precedents, to accurately resolve problems faced by client companies. In addition, we provide support and advice for civil and criminal litigation involving Japanese companies by working with Indonesian lawyers.

CRM Consulting

We support strategic planning and business process improvement related to marketing, sales, and customer service; the implementation of related systems; marketing analysis based on customer strategies (such as optimal customer segmentation); and initiatives to enhance customer satisfaction.

FAS Consulting

We support companies in solving various management challenges and enhancing corporate value in financial-related matters. In addition to expert management support and M&A advisory services, we also offer comprehensive consulting services for stock exchange listings (IPOs).

Overseas Expansion Support Consulting

Leveraging the strengths of the J Trust Group, which operates in Indonesia, we support overseas expansion into Indonesia in all aspects. This includes pre-expansion research, investment, and strategy formulation for M&A, as well as company establishment, fundraising, financial management, labor and legal issues, local partner collaborations, and human resources support after entering the market.

Overseas Talent Consulting

In response to the labor shortage caused by the declining birthrate and aging population in regional companies in Japan, we are working to utilize overseas talent through the global network of the J Trust Group and our business operations in Indonesia.

We have partnered with Indonesian government-certified sending organizations that provide Japanese language education necessary for employment in Japan, as well as cultural and life education, along with practical training tailored to specific industries. Through this collaboration, we are meeting the demand for overseas talent in Japan.

We currently need the best talents

CRM, FAS, and Overseas Expansion Support Consulting

As an advisor to the Indonesian government agency Badan Bank Tanah, we have signed a basic agreement for the exclusive introduction and support of Japanese investors investing in the new capital, Nusantara. In addition, we have entered into consulting agreements related to CRM and FAS with 29 corporations and financial institutions both within and outside of Indonesia. Furthermore, we are providing support for the expansion of 30 companies, including regional Japanese banks, into Indonesia.

Overseas Talent Consulting

In response to the issues of the declining birthrate and aging population faced by regional companies in Japan, we are providing consultations on overseas talent through local Japanese banks. J Trust Consulting has partnered with Indonesian government-certified sending organizations that offer Japanese language education, cultural and life education, as well as practical training tailored to specific industries, to meet the demand for overseas talent in Japan. Additionally, through our partner sending organizations, we also facilitate job placements for overseas talent, leveraging the J Trust Group's network to introduce human resources from local regional banks in Japan.

Interpretation and Translation Consulting

The interpretation and translation services provided by highly experienced Japanese and Korean interpreters and translators, who are certified with the Japanese-Language Proficiency Test (JLPT) N1 and the Test of Proficiency in Korean (TOPIK) Level 6, are offered to corporations and financial institutions within Indonesia, as well as Japanese companies planning to expand into the market. These services have resulted in over 13,000 hours of interpretation and more than 50,000 pages (equivalent to A4 size) of translation annually.
